Work Session May 20, 2003

There Montgomery County Board of Commissioner met in a work session on Tuesday, May 20, 2003 at 4:00 p.m. A full board was present. *Chairman Maness called the meeting to order and the following was heard:*

Redistricting Plan

Attorney Michael Crowell was present to discuss the compromise that was agreed upon on the redistricting plan. He said the board will need to vote on this plan at the next regular meeting (which is June 3). Mr. Crowell said this new plan has come as close to meeting everyone's needs as any will. He said he was going to go over the features of the plan and why he thinks it is good for the board to go ahead with this plan.

Mr. Crowell said this plan is a five-member board, three districts and two at large. He said the districts consists of more whole precincts and divides the county less and the voters will understand this plan more.

He said District 3 almost has a majority of African Americans. Every voter will vote for the same amount of board members and will vote for a majority of the board.

Mr. Crowell said the two at large seats increases the odds of a minority being elected. He said the three districts will be elected together and the two at large seats will be elected together, but in a different year. He said every two years people will get to vote.

Mr. Crowell said the reasons for recommending this to the board is it is a reasonably good elections plan, it appears to meet the needs of the county, and you get to choose the plan. If you did not agree the judge would decide. He said it seems unlikely to go back to the old plan to the all at large.

He said if the board agrees to this plan and puts it into effect it would bring an end to the litigation and he believes the judge will approve. Mr. Crowell said the board could have chosen to discuss this in closed session, but chose to discuss this in open session, which he said is commendable.

Commissioner Knight, who was appointed along with Chairman Maness to look into this issue, said this is the best we could do, he said I think the judge was pleased we were working on our own. Mr. Knight said Chairman Maness and I have worked hard on this.

Chairman Maness echoed Commissioner Knight's comments. He said there were some things I wanted and some things he wanted, but we compromised.

The board agreed to vote on the redistricting issue on June 3, 2003.

Cable Franchise Ordinance

Mr. David Harris with the Piedmont Triad Council of Governments was present to discuss the franchise agreement with Uwharrie Cable.

(Mr. Harris sent a letter to the board prior to the meeting that stated: he examined the cable television related files in Montgomery County and has been in contact with Uwharrie

Communications concerning the renewal of the franchise agreement with the County. He said it appears that Tarheel Cable established a franchise with the County in late 1987 for a period of 15 years. The county and Time Warner were at an impasse in 1999/2000 concerning a cable matter. The county asked him to assist in the resolution of the problem and the problem was resolved. Mr. Harris said at about the same time Tarheel reorganized and the franchise was changed to Uwharrie Communications on April 4, 2000. At that time the County Manager asked Uwharrie to look at a renewal in 2001. It is my belief that a franchise was prepared by Uwharrie but the circumstances of Uwharrie reorganization and changing of County Managers let this matter slip to a rear burner at Uwharrie. He said by happenstance I was reviewing our cable files and ran across the Uwharrie/County file and asked a few questions of your staff and Uwharrie. Suspicions confirmed; so I drafted a franchise renewal, coordinated with Uwharrie and the Clerk to the Board for consideration of adoption.) *Other correspondences and the franchise are as follows:*

BOARD REPORT

Date: March 18, 2003

To: Honorable Chairman and Board of Commissioners Montgomery County

Thru- County Manager

From: David H. Harris, Piedmont Triad Council of Governments

Subject: Adoption of a Cable Television Franchise Agreement

Uwharrie Communications has requested that the cable television franchise agreement with the County of Montgomery be renewed.

The County and Uwharrie are currently working under an agreement mutually agreed upon on or about December 1987. Uwharrie is prepared to renew the franchise agreement upon request of the County.

The Piedmont Triad Council of Governments has reviewed the cable television related documents and found that the County has established a "Montgomery County Cable Television Ordinance," which establishes the rules for doing cable business within the County. The Ordinance provides for:

Exclusive franchise agreements (no longer allowed by federal statutes) State-of-the-art cable system building to 20 homes per mile 15-yearterm

Customer Service Regulation

Transfer of control and revocation procedures Periodic/special review of the franchise agreement 5% fi7anchise fee paid on a yearly basis

Free cable to public buildings to include schools

The proposed Franchise Renewal Agreement supplements the Ordinance by: Mandates a non-exclusive franchise (per federal statutes) Provides payment of franchise fees on a quarterly basis Provides specific and measurable customer service standards Emergency use of cable system Identifies specific service area (Badin Lake)

Uwharrie has agreed to the terms of the attached franchise agreement and as stated in the Agreement has also agreed to comply with the Cable Ordinance and police powers of the County.

RECOMMENDATION:

The Board finds that the renewal of a cable television franchise agreement with Uwharrie Communications has the potential of having great benefit and impact on the citizens of the County. Recommend the Board of Commissioners:

- 1. Approve, at two regularly scheduled meetings, the Cable Television Franchise Agreement with Uwharrie.
- 2. Authorize the Chairman to execute the Agreement.

Enclosure: Final Draft of the Cable Television Franchise Agreement

- (b) Nothing in this rule should be construed to prevent or prohibit:
- (1)A franchising authority and a cable operator from agreeing to customer service requirements that exceed the standards set forth in section (c) of this rule;
- (2)A franchising authority from enforcing, through the end of the franchise term, preexisting customer service requirements that exceed the standards set forth in section (c) of this rule and are contained in current franchise agreements;

- (c) Effective July 1, 1993, a cable operator shall be subject to the following customer service standards:
- (1) Cable system office hours and telephone availability.

be met no less than ninety (90) percent of the time under normal operating conditions, measured on a quarterly basis.

- (v) The operator will not be required to acquire equipment or perform surveys to measure compliance with the telephone answering standards above unless an historical record of complaints indicates a clear failure to comply.

- (vii) Customer service center and bill payment locations will be open at least during normal business hours and will be conveniently located.

- (ii) Excluding conditions beyond the control of the operator, the cable operator will begin working on "service interruptions" promptly and in no event later than 24 hours after the interruption becomes known. The cable operator must begin actions to correct other service problems the next business day after notification of the service problem.
- (iii) The "appointment window" alternatives for installations, service calls, and other installation activities will be either a specific time or, at maximum, a four-hour time block during, normal business hours. - (ii) Normal Operating Conditions. The term "normal operating conditions" means those service conditions which are within the control of the cable operator. Those conditions which are not within the control of the cable operator include, but are not limited to, natural disasters, civil disturbances, power outages, telephone network outages, and severe or unusual weather conditions. Those conditions which are ordinarily within the control of the cable operator include, but are not limited to, special promotions, pay-per-view events rate increases, regular peak or seasonal demand periods, and maintenance or upgrade of the cable system.
- (iii) Service Interruption. The term "service interruption" means the loss of picture or sound on one or more cable channels.

Mr. Harris discussed the proposed franchise agreement with Uwharrie Cable (Uwharrie Cable used to be Tarheel Cable). They serve the Northwest corner of the county (Uwharrie Pointe area).

The board instructed Mr. Matthews to survey residents of Montgomery County who use this cable franchise and also to talk with County Attorney Russ Hollers.

Secondary Road Plan

Mr. Harold Matthews, Maintenance Engineer and Mr. Kevin Hedrick, District Engineer from the N.C. Department of Transportation were present to discuss the transportation plan for the upcoming year and to present a resolution in support of this plan. Mr. Matthews and Mr. Hedrick went through the plan and answered questions the board had. Commissioner Bostic asked why do you come to us to approve the plan if we can't change the listing? Mr. Hedrick said we can't spend the money without a resolution.

Commissioner Bostic said we hear people say that you can't do anything to improve the roads in a development is that true? Mr. Hedrick said yes if they are private roads. He said the developer is required to maintain. If it is a public road and the developer wants us to take it over, he is required to pave the road to sate standards before we will take over.

Mr. Hedrick talked about the law and requirements for paving. He said each case is different. If we can prove the road was in existence before 1975, we probably can take over the road.

Commissioner Knight was concerned about roads that older people live on because ambulances have a hard time getting to them. He said the people are stuck. What are we going to do about it? Mr. Hedrick said there is nothing the state can do.
